*   The next few questions are about your   *
*   (neighborhood/community).  For the      *
*   next three questions, we are going to    *
```

\* use what we call a "worst-best" scale. \*

\* It goes from zero to ten, where zero \*

\* means "the worst possible" and ten \*

\* means "the best possible". Here's an \*

\* example of how it works. If I ask "as \*

\* ice cream flavors go, \*\*\* how do you \*

\* like vanilla ice cream, " and you like \*

\* vanilla a lot but it's not your \*

\* favorite flavor, you might say "7" or \*

\* "8". If vanilla is one of your least \*

\* favorite ice cream flavors, you might \*

\* say "2" or "3". You can choose any \*

\* number between zero and \*\*\* ten in \*

\* answering these questions. \*
